# New Range of Distribution Boards WITH POLYCARBONATE TRIMS

Distribution boards are manufactured out of high quality steel sheets and are processed on CNC machines. Each box goes through the 7 tank process of phosphating before they are powder coated in the best possible environment giving the finest finish.

Products referring to IS : 13032 & IEC : 439 & 529.

## Automatic Changeover Switches - DP, AND FP

Single Phase

Three Phase

### Single Phase Change Over Switch :

Cat. No.	Rating Amp.	Type	Operating Voltage	M.R.P. / Pc.	Pack Qty.	HSN CODE
<i>New</i> AC-101	32A	DP	220 V AC +/- 10% 50 Hz	4194.00	10	8536
<i>New</i> AC-102	63A	DP	220 V AC +/- 10% 50 Hz	5136.00	08	8536

### Three Phase Change Over Switch :

Cat. No.	Rating Amp.	Type	Operating Voltage	M.R.P. / Pc.	Pack Qty.	HSN CODE
<i>New</i> AC-108	63A	FP	220/415 V AC +/- 10% 50 Hz	9123.00	03	8536

### Features of Automatic Gen / Main Changeover :

- ▶ Automatically changes the lines from Main to Gen Set & Vice Versa.
- ▶ Changing over the Main line with the relay.
- ▶ Auto Selector.
- ▶ Simplified and Easy Installation.
- ▶ Indication for active power source is available.
- ▶ Avoids physical operations and suffering.
- ▶ All comes as individual Compact Cubical unit.
- ▶ High grade heavy contact points.
- ▶ High quality powder coated CRC Cabinet.

#### What is Busbar chamber ?

Busbar Chambers are the metallic strips or bars, housed inside the switchgear, panel boards and busway enclosures for high current power distribution and ensure straightforward network configuration. The main purpose of using it to conduct a substantial current of electricity.

#### Why Busbar protection is required ?

The primary objective of busbar protection is to limit the damage to wires due to loose contacts and also to minimize power losses in distribution.

**THE MOST RELIABLE RANGE OF SWITCHGEAR & CHANGEOVER SWITCHES.**

- 1) Products conforming to IS : 13947 part 1 & 3 IEC : 60947 part 1 & 2.
- 2) Quick make & break mechanism independent of speed of operating handle.
- 3) Heavy duty spring loaded ETP copper contacts provided for low watt losses & energy saving thus reducing operational cost.
- 4) Flip type spring loaded male contacts / blades provided for splitting and quenching of arc during break operation in high rating change over switches.
- 5) Transparent polycarbonate shroud provided for protection of operator and direct visibility of contacts in high rating changeover switches.
- 6) Additional safety guard has been provided at the incoming side to prevent accident touch with live contacts at the time of maintenance in double break fuse switches.
- 7) State of the Art 8=tank technology employed for anti-rust pretreatment & phosphating.

## COVER MOUNTED ADVANTAGE

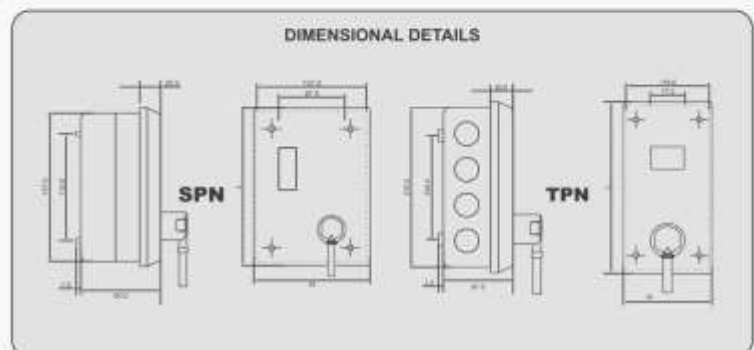

- 1) TOTAL HUMAN SAFETY ensure while plugging so that "Earth Connection" is made first before the "Phase Connection". Dring disconnecting "Earth Contact" breaks after the "Phase Contact" i.e. EARTH FIRST MAKE, LAST BREAK.
- 2) Socket unit specially COVER MOUNTED to keep it separate during construction activity.
- 3) Artistically deep drawn enclosure avoiding wild joints for better aesthetics and strength.
- 4) Easy and quick fitting / connections ensured by pre-wired unit with adopter.
- 5) Suitable for short circuit & overload protection of Ac's / Geysers etc. When fitted with MCB.

# warranty

## Warranty Policy :-

- All switches and sockets carry a warranty of 10 years from the date of purchase except L.E.D. indicators, Regulators, AC Starters and Electronic Items.
- L.E.D. Indicators Regulators, AC Starters and Electronic Items carry a warranty of 2 years from the date of purchase.
- The warranty is applicable only against manufacturing defects or faulty workmanship.
- The warranty is however subject to the provision of proper usage and does not cover surface coated products, normal wear and tear of parts, defects arising out of fire, accident, voltage fluctuations and willful or accidental damage.
- The manufacturer will not be liable for any consequential loss, injury or damages attributable to defect or failure of its products.
- The company reserves the right to change/improve the design, without prior notice. In such cases, replacements shall be carried out with the design prevailing at that point in time.

### Terms and Conditions :-

- Prices are in Indian Rupees.
- This price list supersedes all previous price lists.
- Prices are subject to change without prior notice.
- Dispute if any are subject to Kapurthala jurisdiction only.

### Warranty Policy :-

- All switches and sockets carry a warranty of 10 years from the date of purchase except L.E.D. indicators, Regulators, AC Starters and Electronic Items.
- L.E.D. Indicators Regulators, AC Starters and Electronic Items carry a warranty of 2 years from the date of purchase.
- The warranty does not cover metal wall boxes.
- The warranty is applicable only against manufacturing defects or faulty workmanship.
- The warranty is however subject to the provision of proper usage and does not cover surface coated products, normal wear and tear of parts, defects arising out of fire, accident, voltage fluctuations and willful or accidental damage.
- The manufacturer will not be liable for any consequential loss, injury or damages attributable to defect or failure of its products.
- The company reserves the right to change/improve the design, without prior notice. In such cases, replacements shall be carried out with the design prevailing at that point in time.
